

NEWSLETTER

PAUSA has initiated efforts to bring more members to PAUSA by ensuring a good representation of the Board in National Society events. The presence of Pr Papa Ahmed Fall at the Kenyan Association of Urologic Surgeons Association (KAUS) Conference is one of the examples

The creation of an extended PAUSA board that includes representatives of all National Urology Associations of the continent aims at discussing all matters together and proposing solutions

PAUSA is creating Urology interest groups to support the activities of the different African regions

PAUSA and SIU have initiated discussion on how to better support African Urology both locally and globally. A list of Urology Experts from Africa has been sent to SIU to incorporate those experts in SIU scientific events particularly during the SIU2023 Conference and going forward. A working group has also been created to include PAUSA members and SIU leadership to further develop our collaboration.

PAUSA is advancing the collaboration with the European Association of Urology (EAU) based on the needs from the African Urologists oriented towards training. A productive meeting was organized between EAU leadership and Dr Said Ahmed Zribi, PAUSA President-Elect at the EAU conference 2023 in Milan

The AUA conference in Chicaco is an occasion to reorganize the collaboration between PAUSA and AUA. A meeting of the 2 leaderships is scheduled
